Message from the Executive Director

Despite all the geopolitical and economical challenges that were beyond our control in 2022, himaya's team continued to focus on its **mission to promote a safe environment for children and ensure their protection through holistic intervention and community empowerment**.

As a team, we remained centered on delivering the best services in case management, prevention activities, judicial protection support and capacity building to our communities. **himaya** will carry on delivering value by supporting individuals break the silence in child abuse cases.

We are thankful for all the support **himaya** keeps on receiving from our community, donors and partners who continue to see the value we bring to our society.

That support is our greatest motivation to continue putting our hearts and souls in this noble mission and the impact we make to make our world a better place.

Serge Saad
Executive Director- himaya

"himaya's team continued to focus on its mission to promote a safe environment for children and ensure their protection through holistic intervention and community empowerment."

Serge Saad
Executive Director

Who We Are

himaya's vision is to create a world where children feel safe and celebrated for their rights.

We believe that every child deserves to live in an environment where they are protected and where their rights are respected.

Our mission is to promote a safe environment for children and ensure their protection through holistic intervention and community empowerment.

Through our various programs and initiatives, we work towards achieving our vision by providing a safe and nurturing environment for children, while also promoting their rights and empowering them to be active participants in their communities.

What we stand for

IMPARTIALITY
We are unbiased; continuously honoring the child's best interest.

EQUITY
We are non-discriminative; providing equal opportunities to all.

COMMITMENT
We are committed to our cause; thriving to protect the integrity of every child.

DIVERSITY
We are multicultural; embracing different backgrounds.

ACCOUNTABILITY
We are accountable; accepting ownership of our actions.

PARTNERSHIP
We are community-centric; fostering trustworthy partnerships.

What we stand for

As we delve deeper into how our values are translated into action, this report offers an overview on how we have implemented our guiding principles in our programs and initiatives, and the impact they have had on the lives of children and communities.

From promoting equity and diversity to demonstrating accountability and commitment, our values guide our work and lead us towards achieving our mission of creating a safe environment for children and ensuring their protection through holistic intervention and community empowerment.

EQUITY

While we remain committed to reaching as many children as possible, regardless of their nationality, and ensuring that they feel safe and celebrated for their rights, himaya have been working hard to increase their efforts in reaching the Lebanese community.

While we are proud of our accomplishments, we know that there is still much work to be done, and we remain steadfast in our commitment to reaching even more children in the coming years.

The numbers to the right include the below:

- Awareness sessions with parents & caregivers
- Community-Based psychosocial activities
- Capacity building among professionals and institutions
- Parenting Sessions

CAPACITY BUILDING INITIATIVES

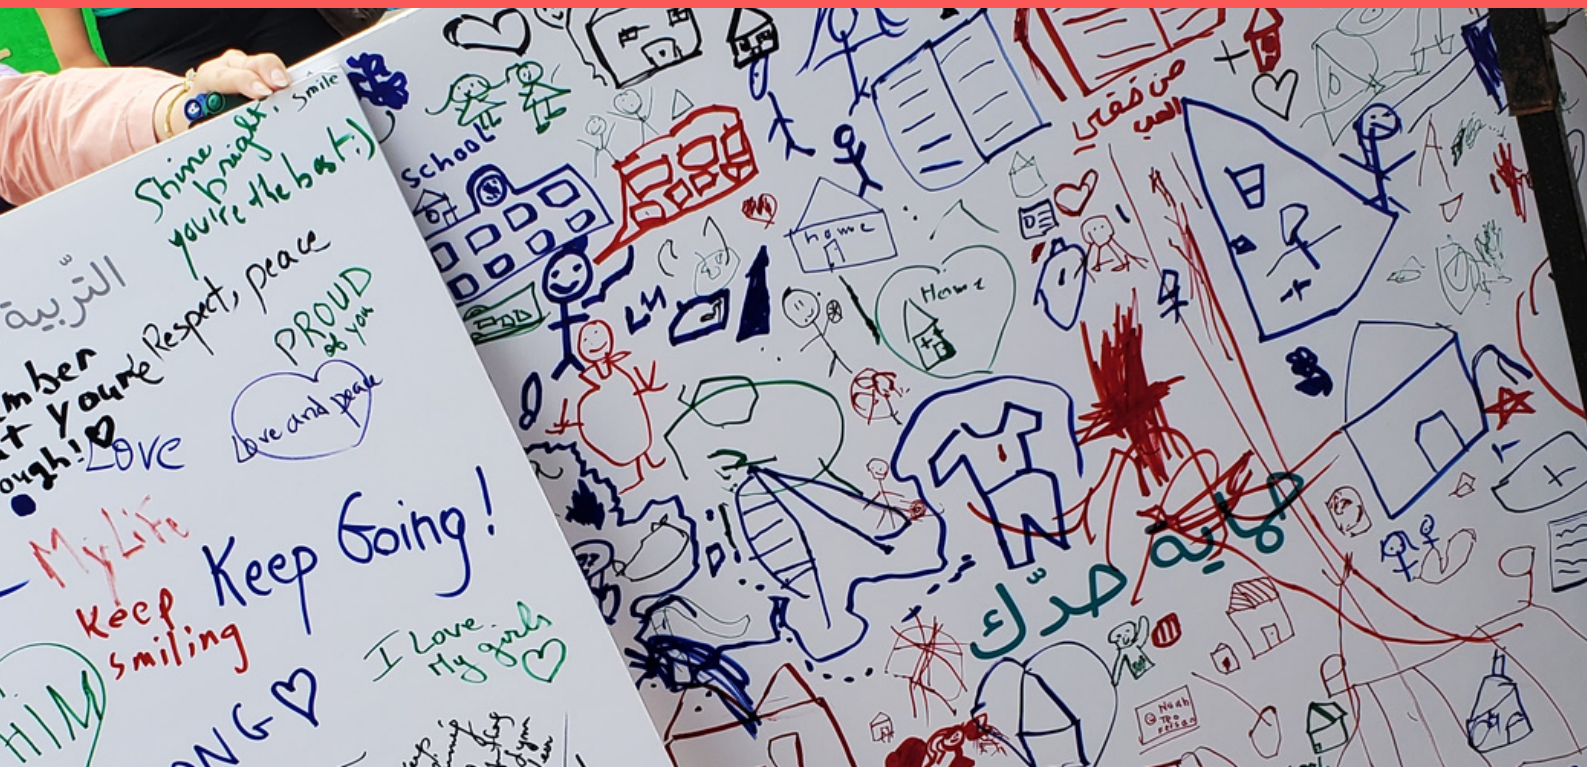

PARTNERSHIP

STRENGHTENING THE CHILD PROTECTION NETWORK

Our training and capacity-building activities are designed to be responsive to the specific needs of each community and national entity we work with. By tailoring our approach to local contexts, we're able to build trust and strengthen relationships within these communities.

Through our partnerships and community empowerment efforts, we're able to create a more comprehensive and effective system of child protection. We believe that every child deserves the chance to grow up in a safe and nurturing environment, and we're committed to working towards that goal in partnership with communities and national entities.

PARTNERSHIP

Roundtable on Child Labor

himaya, in partnership with Relief International and RDPP, organized a **roundtable discussion on the issue of child labor in North Lebanon** as a means of initiating a discussion on existing child protection (CP) problems. The event brought together a diverse range of attendees, including MPs, representatives of the Internal Security Forces (ISF), the Ministry of Social Affairs, the Ministry of Labor, the Ministry of Justice, local municipalities, and CP partners such as UNICEF and UNHCR.

The roundtable discussion proved to be a successful forum for generating suggestions and commitments from local public authorities and figures. The event served as an opportunity for stakeholders to discuss the current state of child labor in North Lebanon, as well as potential solutions and strategies for combating this issue.

Through this event, himaya was able to promote a collaborative approach to addressing child protection.

Overall, the roundtable discussion served as a valuable forum for advancing the cause of child protection and promoting greater awareness and understanding of the issue of child labor in North Lebanon.

STRENGHTENING THE CHILD PROTECTION NETWORK

Building the capacity of lawyers on child protection

Following its newly acquired mandate from the Ministry of Justice in the Bekaa Governorate during 2021, himaya was able to expand the judicial protection team operating in the area during 2022.

himaya was able to strengthen existing partnerships and establish new ones, especially with CP/GBV/Education agencies in order to spread the knowledge about judicial protection and the existing services provided by himaya in this regard.

During 2022, himaya continued its long running partnership with the Tripoli Bar Association and added a new partnership with the Beirut Bar Association through its representatives in Central, West and North Bekaa. These partnerships which served as cornerstone to the training sessions that were conducted for the benefit of **122 lawyers** in partnership with UNICEF.

himaya believes that the collaboration with the two bar associations expands the child protection network to ensure child protection when a child is at risk or in conflict with the law.

Participant Feedback:

The training allowed me to reflect on how to deal with my children on a personal level, as well as how to prepare judicial files when there is a minor involved in any conflict in front of a court.

STRENGHTENING THE CHILD PROTECTION NETWORK

Building the capacity of the Lebanese Armed forces on child protection and child friendly investigation techniques

Believing in the importance of all community members in ensuring the protection of children, himaya recognize the importance of providing Lebanese Army and ISF members with the knowledge and skills to better protect children.

In 2022, himaya with the support of Save the Children was able to offer training sessions among 95 Lebanese Army forces members and 21 internal security Forces members in applying appropriate communication guidelines while dealing and investigating with children at risk or/and in conflict with the law.

Participant Feedback:

صرنا ننظر للطفل بطريقة أعمق، خاصة لمى بيكون عنا طفل مخالف للقانون، اكتسبنا معرفة أكتر حول التقنيات يلي ممكن نستعملها للتحقيق معه نحنا وعم نحافظ على مصلحته

As an outcome, the total knowledge increased by 34% and 87.8% was the satisfaction rate of the participants.

Save the Children

STRENGHTENING THE CHILD PROTECTION NETWORK

Building the capacity of Municipal Police Officers on child protection

In collaboration with Beirut Municipality, himaya delivered a training session addressed to **46 Municipal Police Officers** on child safeguarding and child Protection.

MP officers were 92% satisfied with the workshops and appreciated the opportunity to attend them.

Participant Feedback:

This training enabled me to be more conscious of what my children were facing those days and my job as a parent to be alert in protecting them.

Building the capacity of Health Care Providers on child protection

Participant Feedback:

تغيرت نظرتي لكل حالات العنف التي تصل إلى قسم الطوارئ والمعرفة حول كيفية التعامل مع هذه الحالات ومن يجب أن يبلغ

During 2022, himaya worked closely with various medical institutions across the country including governmental hospitals, primary health care centers and dispensaries on how to safely identify and refer cases of child abuse.
The training objectives were in line with the general guidelines that had been developed recently by MoPH and UNICEF, and were addressed to nurses and doctors.

The total knowledge of participants increased 35.6%, and they expressed 88.8% as a total average of satisfaction.

Implementing Child Protection Policies among schools

Throughout 2022, himaya supported various private schools such as: ACS, WLC, IC, LWIS-CIS and various organizations in developing and reviewing their child protection policies.

We were able to strengthen the capacity of **52 teachers** as a result of this project, and we promoted awareness of the importance of child safeguarding and child protection policy inside the school to 256 school workers via presentation.

Participants were 97.6% satisfied with the training sessions that were delivered. Their total knowledge increased by approximately 35.4%.

Local & International organizations

Through 2022 we worked closely with Local and International organizations offering their front-line professionals on how to safely identify and refer cases of child abuse.
We were able to reach **329 humanitarian workers** from different background (Doctors, social workers, psychologist, administrative workers, legal and more).

Participants were 96% satisfied with the training sessions that were delivered. Their total knowledge increased by approximately 43%.

PARTNERSHIP

STRENGHTENING THE CHILD PROTECTION NETWORK

Building the capacity of Judicial Protection Case Workers with Qarama

himaya also built the capacity of Judicial Protection Case Workers who are part of our subcontractor in Mount Lebanon: Qarama. The training was specifically provided to the team of workers of Qarama and aimed to enhance their skills and knowledge in various areas including referral to judicial pathways, legal procedures, communication skills, standard operational procedures, data management, emotions management, alternative care, and more.

This initiative is another collaborative effort on behalf of himaya, towards promoting diversity and building the capacity of local organizations in Lebanon.

QARAMA
Human Dignity Union

Inclusion for all:
Training for associations working with Children With Disabilities

As part of our efforts to promote a more inclusive approach towards Children with Disabilities (CWD), we organized training sessions in various organizations that work closely with children with special needs. The purpose of these sessions was to equip professionals such as educators, speech therapists, and psychometricians with knowledge and skills related to child protection.

The participants of the training sessions expressed a high level of satisfaction, with 90% reporting that they were satisfied with the content and delivery of the training. The sessions were also successful in improving participants' knowledge, as their total knowledge increased by 44.05%.

STRENGHTENING THE CHILD PROTECTION NETWORK

PREVENTION & AWARENESS ACTIVITIES

PARTNERSHIP

STRENGHTENING THE CHILD PROTECTION NETWORK

Our prevention and awareness activities are designed to support children and their caregivers through a range of interventions, including focused psychosocial sessions, parenting sessions, and youth-led community initiatives.

These activities are carefully selected to address the specific needs of the communities we serve, and are designed to promote the physical, emotional, and social well-being of children and their families. Through these initiatives, we aim to make a positive impact on the lives of the children and families we work with, and to promote long-term positive outcomes for the communities we serve.
In the coming section we have chosen to highlight a selection of our 2022 key activities:

STRENGHTENING THE CHILD PROTECTION NETWORK

Community-Based Activities for Social Behavioral Change

The Mayors' Initiative

To ensure child protection in accordance with Lebanese law, our organization held two workshops and a focus group for 12 mayors from the Keserwan area. These interventions assessed the mayors' knowledge of their responsibilities under Law 422 and deepened their understanding of child protection.

As a result, the mayors have become active agents in protecting children and committed to referring cases to the appropriate authorities.

Follow-up meetings are planned to address any challenges and raise awareness on child protection within their respective regions.

The community theater-play initiative

As part of UNICEF's "Qudwa" initiative and in collaboration with the "Fahem Theater Committee," a group of children who had received Focused Psychosocial Support (FPSS) on child abuse and bullying with himaya wrote, prepared and presented a play to 670 children and 155 caregivers at COB school, Zalzale Church, and Rachaya.

The play aimed to raise awareness on child protection and reduce physical and verbal abuse, particularly in the form of bullying. Written by the children themselves, the play showcased their daily experiences and portrayed the behavior of both bullies and victims.

Healing through Art initiative

in 2022, himaya implemented emotional support activities to provide a safe space for Lebanese children to express themselves through music and art.

Children aged 9 to 11 completed a 10-session cycle and created a song reflecting their daily challenges and worries. This song was recorded and further developed by himaya's team, and is now being used to advocate for child rights.

Watch our rehearsal session here →

As part of the "Qudwa" initiative, a flash mob was also organized in three different locations to amplify children's voices within their communities.

The flash mob featured young, talented dancers who conveyed a heartfelt message about the challenges they face living in today's context to the public.

Empowering Youth for the International Volunteer Day

To celebrate the International Volunteer day, himaya gathered all the dedicated volunteers who have been supporting its mission and who have been instrumental in making a significant difference in the lives of the children we work with.

In recognition of their contributions, himaya organized an event titled "For every child, a star" on December 10th, 2022, at the Notre Dame de Jamhour school. The event brought together over 120 volunteers who were celebrated and recognized for their remarkable achievements.

The event served as a reminder of the essential role that volunteers play in their respective communities and the significant impact they can make in transforming the lives of others.

ACCOUNTABILITY

himaya provided focused psychosocial support (FPSS) to children at low to medium risk of CP-GBV violations, with a focus on emotional support.

In total, 2,432 children across Lebanon received tailored support.

Among them were 1,253 children aged between 6-11 years old and 1,415 children aged between 12-17 years old.

As part of an internal evaluation launched at the end of 2022, an analysis of the baseline/endline survey was conducted.

The results of the evaluation showed an average improvement rate of 24% in knowledge for children aged between 6-11 years old between the baseline and the endline surveys. The satisfaction survey result for this age range was 88.57%. Similarly, the average improvement rate in knowledge for adolescents aged between 12-17 years old was 13%, with a satisfaction survey result of 80.36%.

Finally, feedback from the beneficiaries highlighted the positive impact of the program's tailored psychosocial support, with many expressing gratitude for the emotional support they received.

Feedback

"I learned many things including how to protect myself and I taught my younger siblings how to do it in turn. I also became aware about private and sensitive parts. I used to fight with my parents a lot, but now I arrive home with a generally better mood."

-Jad, 11 years Central West Bekaa-

"After the sessions, I noticed that I became more self-confident; it also helped me in making friends, and accept all the people, be peaceful and approach others with a smooth way."

-Sarah, 15 years, Beirut Mount Lebanon-

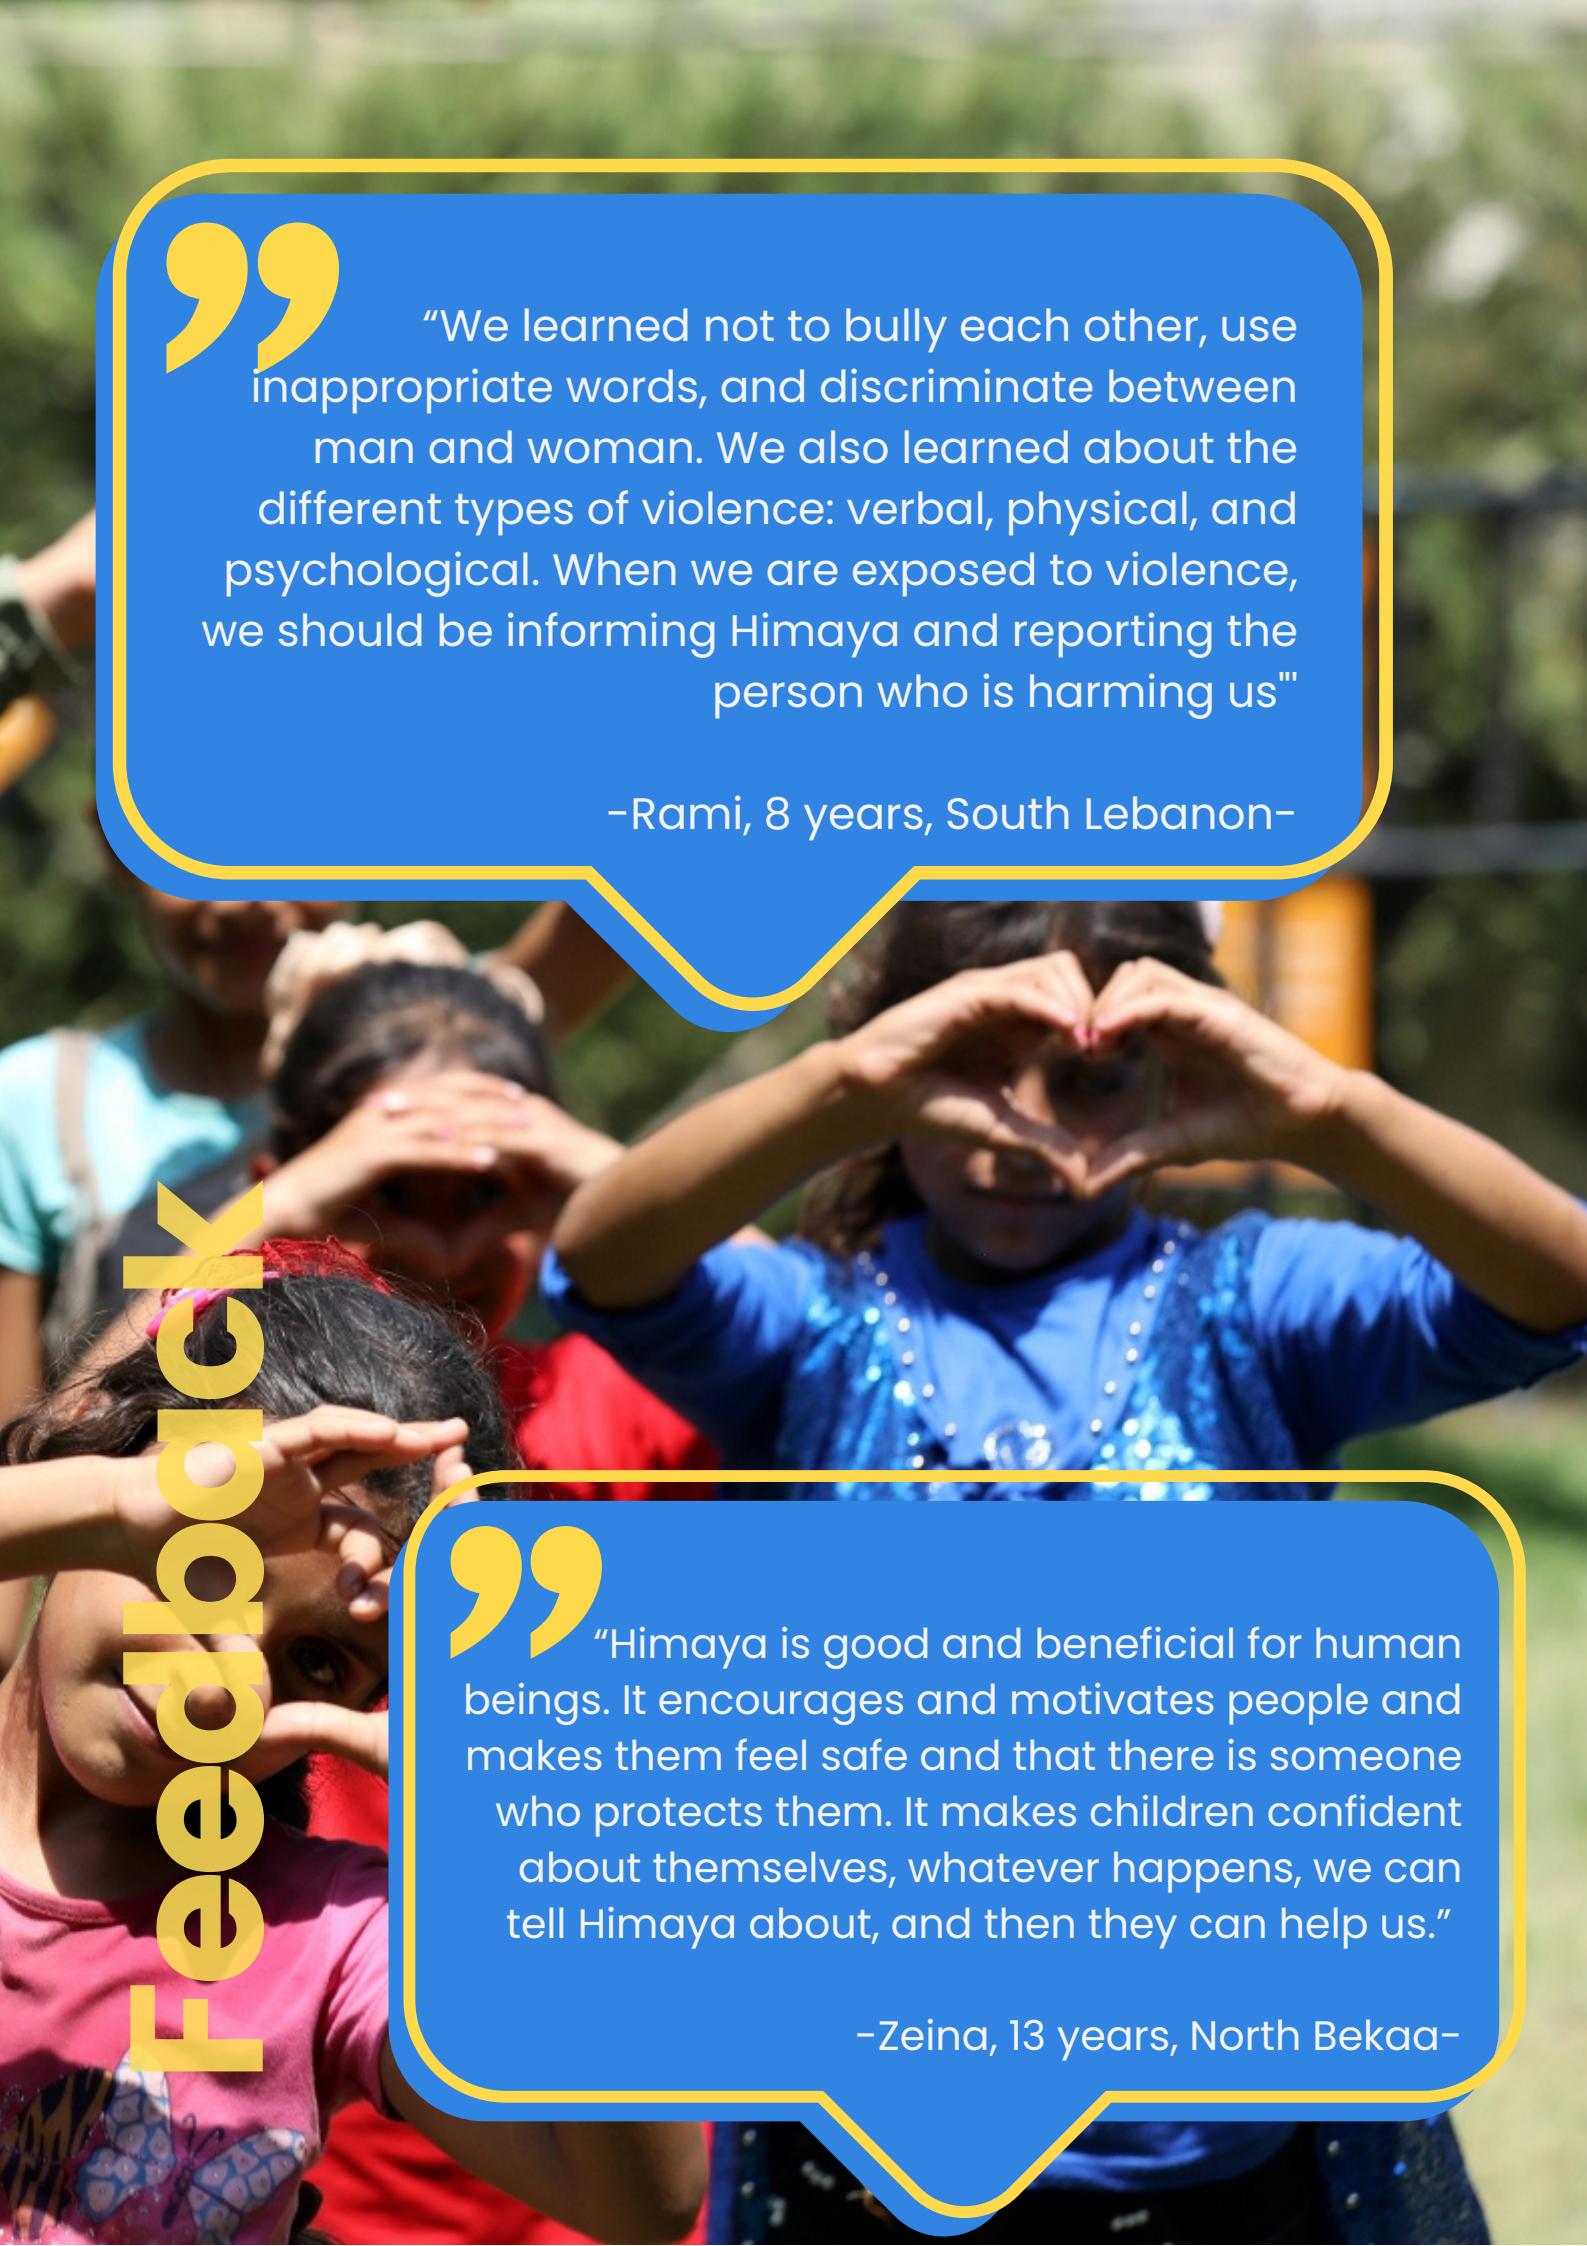

Snapshots from our FPSS across Lebanon

Feedback

"We learned not to bully each other, use inappropriate words, and discriminate between man and woman. We also learned about the different types of violence: verbal, physical, and psychological. When we are exposed to violence, we should be informing Himaya and reporting the person who is harming us"'

-Rami, 8 years, South Lebanon-

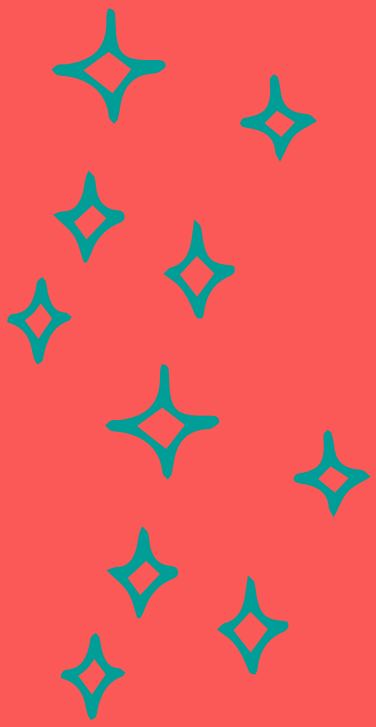

"Himaya is good and beneficial for human beings. It encourages and motivates people and makes them feel safe and that there is someone who protects them. It makes children confident about themselves, whatever happens, we can tell Himaya about, and then they can help us."

-Zeina, 13 years, North Bekaa-

IN NUMBERS

8847 CHILDREN REACHED THROUGH OUR PREVENTION ACTIVITIES

Focused Psychosocial Support Sessions (FPSS)	2432
Community-Based Psychosocial Support Sessions (CBPSS)	6415

Conducting awareness and prevention activities among children is not only a crucial step in educating them about the dangers of abuse, but it can also serve as an indirect outreach method to reach more children who might be victims of abuse.

In 2022 alone,
318 cases of abuse
were detected by himaya's facilitators

STRENGHTENING THE CHILD PROTECTION NETWORK

Working with caregivers, our most valued partners

Parenting-skills

During the early stages of childhood, primary caregivers play an integral role in the lives of children, as the relationship formed during this period can significantly impact their development and shape their personality.

As such, the main goal of the parenting sessions is to increase parents' awareness and provide them with knowledge to help establish healthier relationships with their children and protect them from various types of abuse.

Over a period of three months, a total of 650 parents and caregivers- 4% male and 96% female - participated in a full cycle of the parenting program.

"My relation to my son changed a lot, I stopped sharing the bed with him. I started giving him space, now I give him time and let him talk but with privacy also."

- Caregiver from Beirut Mount Lebanon-

STRENGHTENING THE CHILD PROTECTION NETWORK

Working with caregivers, our most valued partners

The Self-Care Program

The primary objective of this program is to aid adults in raising children by reducing their stress levels and promoting overall well-being.

Engaging in self-care practices helps individuals to maintain a healthy relationship with themselves. By prioritizing their physical and mental health, caregivers can better manage the inevitable stressors that come with raising children.

> "I can now control myself. I specialized time for myself to empty the negative energy. I learned that house chores are not major and that I should have time for myself."
>
> - Caregiver from Central West Bekaa -

> I convinced my husband to participate for" the sake of our daughters, and he did for the first time in his life. He was very satisfied. He loves when they call him أبو البنات!
>
> -Caregiver from Beirut Mount Lebanon-

Over a period of three months, the prevention team successfully reached 187 caregivers who attended a full cycle of the program.

PARTNERSHIP

These numbers demonstrate our deep commitment to fostering strong partnerships and establishing trust as well as robust relationships with all stakeholders involved in child protection

DID YOU KNOW?

Building on trustful inter-sectoral collaboration,

53% of cased referred came from partners who trust himaya's intervention.

46% from INGOs and 7% from local NGOs.

DID YOU KNOW?

Family members showed trust in himaya by reaching out and self-reporting as **11% of cases were referred by members of the family.**

DIVERSITY

STRENGHTENING THE CHILD PROTECTION NETWORK

Inclusion for All: Empowering Caregivers of Children with Disabilities

As a part of our comprehensive approach to addressing the needs of children with disabilities (CWD), we have developed a curriculum aimed at educating caregivers who are in contact with CWD. This curriculum covers various topics related to child rights, managing emotions, positive communication, and positive discipline.

Its purpose is to empower caregivers to advocate for the rights of the children they are responsible for, provide emotional support, and facilitate effective communication.

With Sesobel, we completed a successful pilot and dissemination of the curriculum which has now been widely disseminated.

Feedback

Himaya taught us how to protect ourselves and our children. We know that there is an entity to support us and help us feel stronger. The best thing about it is that it protects children and it created awareness in us and many other moms. Children at home now say that they have the hotline number of Himaya."

-Caregiver from Beirut Mount-Lebanon=

"I especially liked the confidentiality of the sessions because around us we don't have people to ask for support, and if they exist, we are not able to share with them. Our kids participated before us and told us about the activities. We already know the center where the sessions were provided. Participating in the sessions is beneficial for us: we learn, we change moods, and we feel heard."

- Caregiver from Beirut Mount Lebanon-

"I stopped practicing physical violence on my children. Before the sessions, I saw no problem in my daughter marrying at an early age. Now I totally refuse it."

- Caregiver from South Lebanon-

PARTNERSHIP

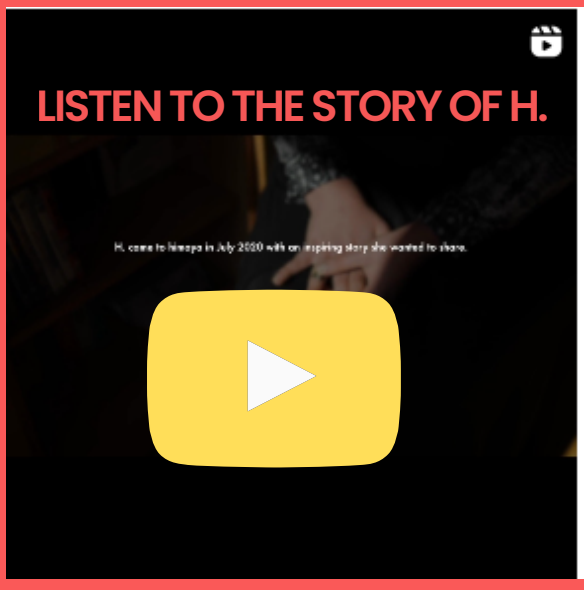

WORLD DAY FOR PREVENTION OF CHILD ABUSE

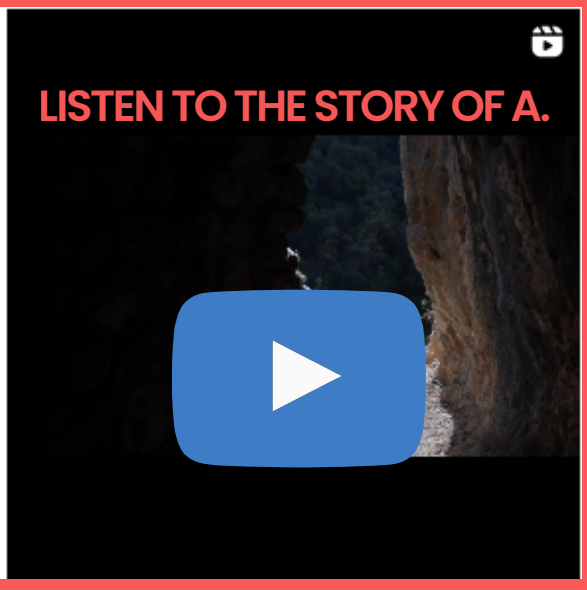

In commemoration of the **World Day for Prevention of Child Abuse**, himaya with the support of UNHCR took a bold step towards raising awareness about the plight of child abuse survivors in Lebanon. With the goal of sparking a conversation and breaking the silence barrier, himaya prepared two testimonial videos featuring survivors of child abuse.

The private screening event, held at the Grand Cinemas in ABC Ashrafieh, was attended by various members of the organization and a crowd of media representatives. The videos were a revelation to many of the attendees, who were not previously aware of their content.

The aim was to start a dialogue among media representatives, who play a critical role in the child protection network, about the taboo subject of child abuse.

RESPONDING TO CASES OF CHILD ABUSE

RESPONSE EFFORTS

COMMITMENT

RESPONDING TO CASES OF CHILD ABUSE

In 2022, the judicial protection services in Lebanon were severely impacted by a lengthy strike carried out by judges. Despite the challenging circumstances, the teams at himaya remained unwavering in their commitment to providing adequate judicial response.

Through their tireless efforts and trustful collaboration with juvenile judges and general prosecutors, himaya's response teams were able to ensure **adequate and prompt support to 625 child in high risk of abuse setting, of which 356 child protection files were issued through the judicial pathway while the rest have been accompanied outside judicial pathway.**

We also placed a particular emphasis on our advocacy efforts this year, working to develop a comprehensive advocacy strategy that will guide our efforts in the coming years. This strategy is set to be finalized in the first half of 2023 and will inform our CP advocacy work going forward.

EQUITY

In 2022, our team was dedicated to providing an equitable response to all children and families in Lebanon who were at risk of abuse.

To achieve this goal, our services were made available through our five primary offices, as well as our two offices in Justice Palaces, and 14 additional shifts established in close proximity to the communities we serve. These locations were chosen strategically to ensure easy access for those in need of our services.

himaya also collaborated with sector partners to expand our judicial protection services to cover peripheral regions, including Baalbak, Al Hermel, and West Bekaa areas.

This effort introduced more sector professionals to our team, strengthening our ability to provide comprehensive support to those in need.

2022

2766

CASES RECEIVED

Throughout the year, our offices received and assessed a total of 2766 new cases.

IMPARTIALITY

RESPONDING TO CASES OF CHILD ABUSE

Families: Our strongest allies no matter what

Collaborating closely with families provides specialists with the opportunity to discern between the actions of individuals and the individual as a whole.

With this perspective in mind, himaya provides equal and simultaneous social and psychological support to all family members; placing a high value on impartiality, and recognizing that the recipient of our services is any child who has been subjected to abusive behavior, irrespective of their or their abuser's identity, race, nationality, religion, political affiliations, or any other distinguishing characteristic.

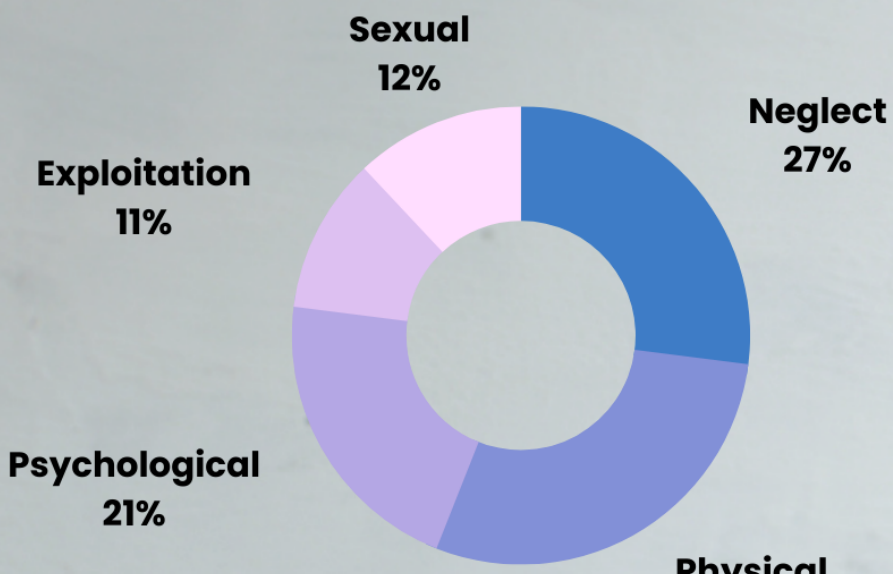

In 2022, 71% of cases, the abusive behavior is associated with members of the immediate family, while 6% of cases involve members of the extended family.

Furthermore, 8% of cases involve individuals who are close to the family, and the remaining 15% involve individuals whose relationship to the family is unknown.

For innocence in danger

DIVERSITY

DID YOU KNOW?

himaya responded to a total of **85 children** who were victims of maltreatment, with their **vulnerability heightened by the presence of a disability**. In these cases, the organization provided comprehensive assistance to the entire family unit

DID YOU KNOW?

himaya addressed a total of **598 cases** of children who were subjected to maltreatment, with their **vulnerability heightened by the worst forms of child labor**.
In each of these cases, the organization provided appropriate and sufficient support to the entire family.

ACCOUNTABILITY

RESPONDING TO CASES OF CHILD ABUSE

Of the children subject to abuse, 30% suffered from a shortage of adequate and appropriate care relevant to their age, which can delay their family's resilience. Our team doubled their efforts and supported these children and their families through specialized punctual family interventions, which offered **appropriate knowledge and know-how to caregivers, and support to children based on their age frame and needs.**

In addition, 6% of the children subject to abuse showed further wellbeing complications due to their parents' psychiatric conditions.

Our team also provided **specialized psychosocial support to these children by referring their caregivers to adequate mental health services,** offering psychotropic medication when needed.

In the year 2022, a total of 1499 abuse cases were concluded. Out of these, 1024 cases were resolved successfully, resulting in a success rate of 68% for the Response Programs.

This implies that in 1024 instances of abuse, children were safeguarded, while their parents and siblings were equipped with new approaches to parenting that aimed at preventing future occurrences of abuse.

DIVERSITY

ALTERNATIVE CARE

On a national level, Himaya not only provides child protection case management services but also supports the protection of children by preventing separation from caregivers and offering alternative care placements within extended family members or foster families via judicial decisions.

In 2022, the team ensured 67 placements of children in family-based alternative care settings.

On the international level, the team collaborated with International Social Services (ISS) partners on 14 cross-border cases originating from Germany, the UK, Australia, Canada, and Switzerland. Through this collaboration, they were able to support 20 children (from 14 families) with welfare and kinship assessments and tracing. The team was successful in reuniting two children with their maternal grandmother in Germany, where they are now under her care.
